

MACTAP WOOD HIGH TANK TOILET ROUGH-IN SHEET

Because the down tube and supply tube can be cut to size, the tank can be hung at whatever your desired height, **NOT TO EXCEED 7 FEET** from the bottom of the tank to the finished floor (depending on where the angle stop is located). It is our experience that hanging the tank so that it hangs 6 feet from the bottom of the tank to the finished floor is the most aesthetically pleasing position.
